# EOSC WGs 2019

## 1. *Business model, governance structure post 2020, legal entity (Sustainability)*

recommendations concerning the implementation of an operational EOSC after 2020, examination of core aspects related to the business model of EOSC, governance structure after 2020.

## 2. *Mapping national initiatives (Landscape)*

alignment of structures and initiatives in Europe including national RIs and e-infrastructures, national open science policies, ESFRI RIs and cluster projects, thematic initiatives and clouds, EOSC-relevant H2020 projects

## 3. *FAIR implementation - requirements (FAIR)*

coordinate activities that implement Open and FAIR practices within EOSC, address cross-disciplinary interoperability and gather requirements to inform the development of core EOSC services

## 4. *Federated infrastructure and portal evolution (Architecture)*

proposing technical arrangements required to enable and sustain an evolving EOSC federation of systems. These may include standards, APIs and protocols that will facilitate interoperable digital services by diverse providers.

## 5. *Rules of participation*

recommending a minimal set of clear RoP that define the rights, obligations and accountability of EOSC transactions by the various EOSC users, providers and operators.

# EOSC WGs 2019

---

**Mission**

**Rational**

**Modus Operandi - Duration**

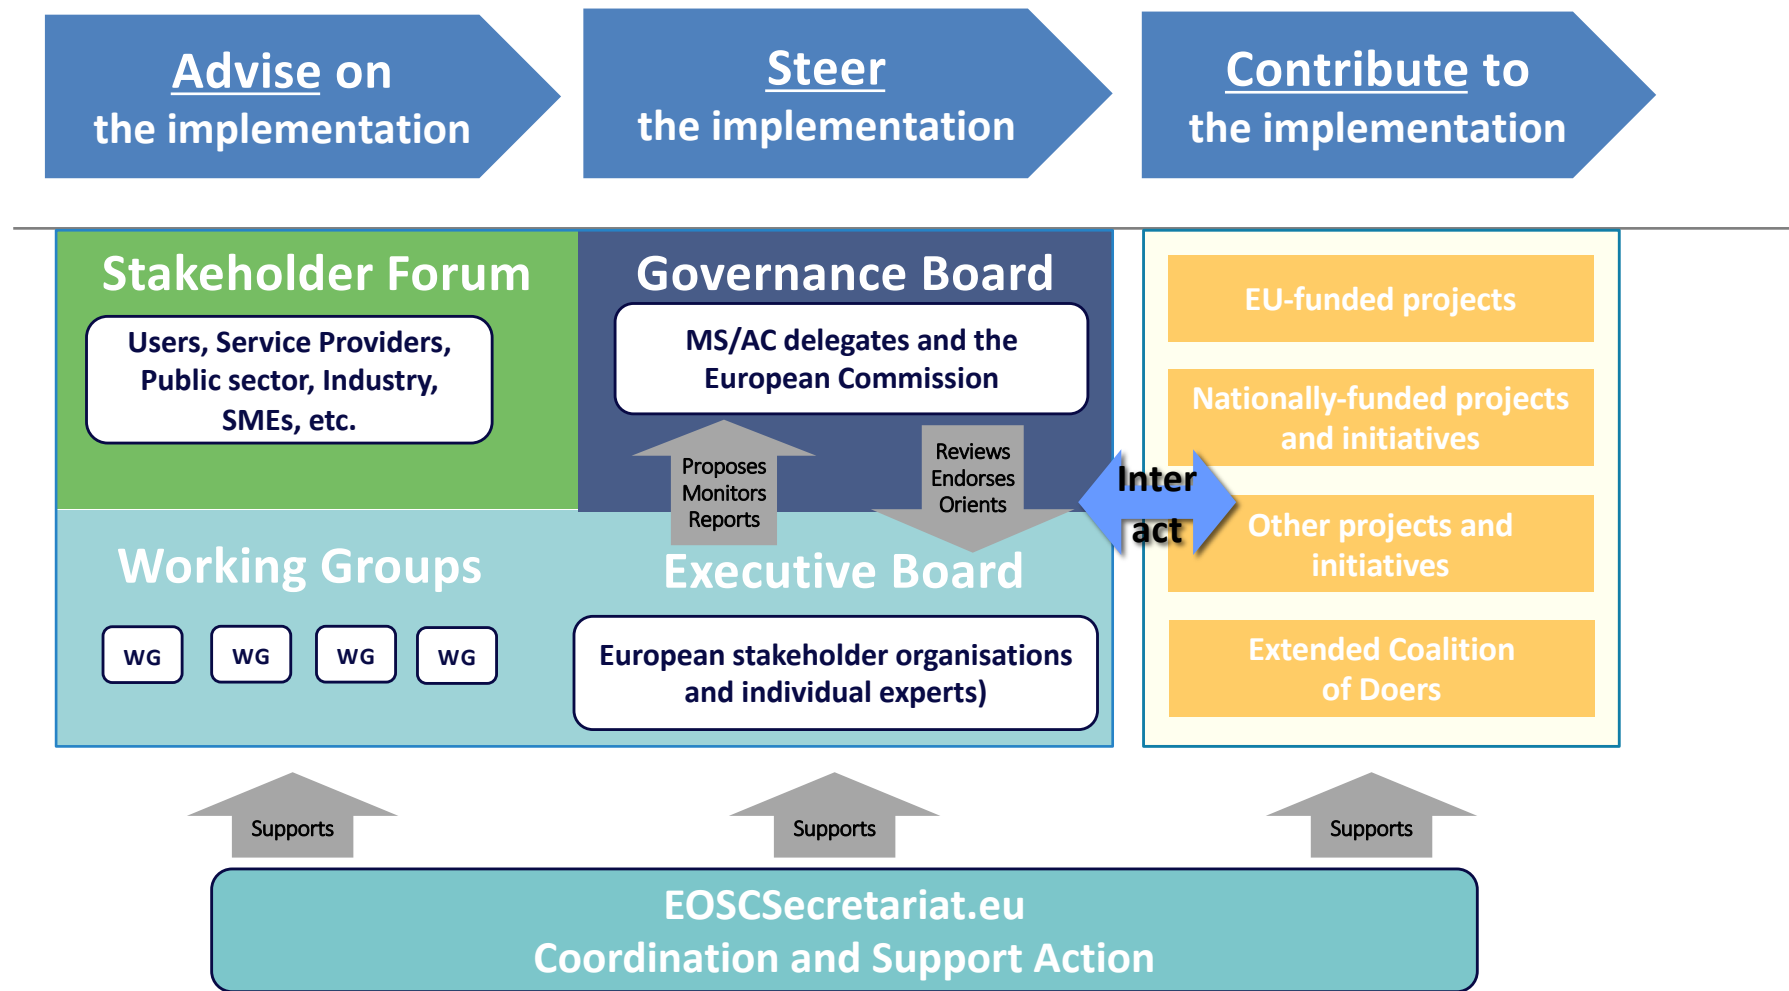

**Membership nominations and engagements**

**Deliverables and Timeline**

**Other WG needed?**

**STILL SUBJECT OF FINAL ADJUSTMENT**

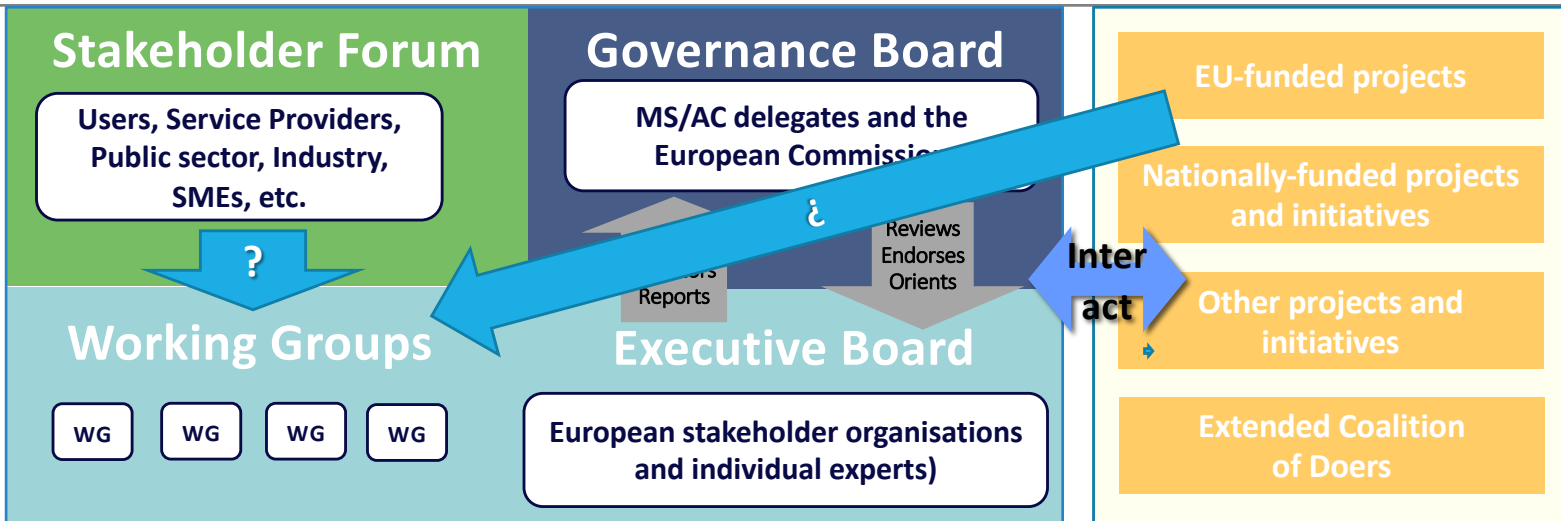

**TO BE ADOPTED JOINTLY BETWEEN THE EB AN GB**

**Advise on the implementation**

**Steer the implementation**

**Contribute to the implementation**

# THANK YOU FOR YOUR ATTENTION
